## PRODUCT DESCRIPTION

- The GILMAN Post is designed for the purpose of holding components securely in place during concrete placement.

## KEY FEATURES

- **Adjustable:** Adjustable Tower allows the user to set the elevation to a tolerance of 1/8th of an inch
- **Efficient:** Integral Ruler allows the user to quickly set the desired height without using a tape measure
- **Strong:** Each GILMAN post supports up to 75 lbs.
- **Easy-to-Use:** Multiple nails provide flexibility to secure the post to the formwork in tough-to-reach places
- **Consistent:** Eliminates the need for multiple job-built solutions
- **Integral Nails:** Nails embedded in the GILMAN Post make connection to the formwork simple
- **Low-Profile Base:** Low profile base design makes the GILMAN Post nearly invisible from below, ideal for exposed ceiling conditions
